EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Hamill on 9/2/2005

The application has been amended as follows:

-Please insert the new abstract-

Abstract of the Disclosure

A self-actuated cervical traction device is provided. The traction device includes a headpiece, a loop attached to the headpiece, a cord, a pulley and a foot engaging loop. The headpiece is secured on the head. The headpiece includes straps which are connected to a first anchor. The cord is first connected to the first anchor and then to and through the pulley system. The pulley system is supported by a door. The cord is further connected to a second anchor. The second anchor is further connected to a foot strap, which engages the feet of the user. The headpiece would be adjusted, and the user would lie on the floor. When the user extends their legs, the foot loop transmits force back through to the headpiece through the cord and pulley system stretching the muscles at the back of the neck, causing a therapeutic effect.

Amendments to the claims filled on 7/22/2005—

Claim 13: lines 13-14 replace portion with side.

-Cancel claims 20-23

Art Unit: 3743

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach nor render obvious the overall claimed combination of the entire limitation cited in claim 13.

Therefore, the invention defined in claim 13-19 is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
